JOB DESCRIPTION

Seeking physiotherapists with passion to serve in the community, to provide physical rehabilitation and return-to-work services for clients with physical disability.

Responsibilities:

- Assess physical and functional status and needs of clients with physical limitations resulting from stroke, traumatic brain injury, amputation and various neuromuscular conditions
- Design and provide evidence-based and client-centred interventions (individual and groups) in collaboration with the multi-disciplinary team to improve client ability in functional domains, so as to promote reintegration to home, work and society
- Work collaboratively with a dynamic multi-disciplinary team to provide clinically effective service to achieve client health and vocational goals
- Educate clients families and employers about how to accommodate and support clients in their rehabilitation
- Ensure comprehensive documentation where all relevant information related to client care is recorded and available to all members of the multi-disciplinary team
- Perform field work involving visits to healthcare institutions, home and worksite visits to support clients transition into employment and the community
- Conduct public education and outreach for programmes and services

Technical Competencies:

At least 3 years of work experience in a hospital setting; experience in working with population with neurological conditions would be an advantage.

Core Competencies:

- Excellent interpersonal and communication skills
- Strong organisational and interpersonal skills
- Able to work in a team and independently
