ENABLING PEOPLE. CHANGING LIVES.

ABOUT ABLE

ABLE, established in 2010, is a social service agency that serves persons with physical challenges and their caregivers through our **(4R)** programmes, providing **R**ehabilitation, **R**espite (for their caregivers), **R**eturn-to-Work and **R**eintegration (to society), thereby enabling them to live with dignity and lead productive, meaningful and independent lives.

WHO WE SERVE

ABLE's programmes cater to individuals aged 18 to 67, offering holistic and tailored plan for each client. Our clients include youth and working adults with acquired disabilities seeking rehabilitation services, with the aim of returning to work or reintegrating into society. ABLE also provides vital support for caregivers who play a crucial role in the well-being and recovery journeys of our clients.

ABLE depends on various funding sources, such as government grants, public donations, and fundraising events like Charity Golf. Funds from these events are vital for sustaining our (4Rs) programmes and upholding the high standard of services our clients deserve. We are reaching out to valued supporters like you because we believe in the power of community and collective action.

Sign up now to not only enjoy a day out on the green but also make a direct contribution to the well-being and empowerment of individuals and families in need.
